

## STUD CONDITIONS HX STALLIONS 2023

### 1. BREEDING SEASON

The breeding season runs from March 1st to August 15th 2023 (excluding Lambada Shake AG and Lambrusco, which are available until July 15th 2023).

### 2. SEMEN ORDERING PROCEDURE

Semen from Stal Hendrix stallions may be sent to a Dutch stallion station of your choice. Please order before 9.00h in the morning. Alternatively, you may pick up the semen from Stal Hendrix in Kessel. The mare's name, registration number and the complete address of the mare owner must be provided when ordering or picking up semen.

Semen can be ordered by telephone through:

• Rens Verberk: +31 6 3033 4431

Or by e-mail: [stallions@stalhendrix.nl](mailto:stallions@stalhendrix.nl)

Or through the website: <https://www.stalhendrix.nl/hx-stallions/>

If the order is placed before 09:00 AM, the semen can be delivered the same day at all insemination stations in the Netherlands. By ordering and purchasing the semen, the mare owner declares to have taken note of these conditions and agrees to the breeding and payment conditions.

Only certified insemination stations affiliated with the Association of KWPN Stallion Owners are entitled to an insemination fee.

If the mare remains barren, the mare owner must submit a barren mare declaration before 1 October 2023. Failure to comply with this policy will result in an automatic charge for the total fee. The barren mare declaration must be issued by a veterinarian.

### 3. EMBRYO TRANSFER and ICSI

If the mare owner wants to have an embryo flush or ICSI performed on his mare, he must pass this on with the first semen order. If no embryos have passed, semen can be ordered again.

The stud fee will be charged per successful embryo, this also applies to frozen embryos and if several embryos are flushed from one insemination or if several embryos are created from an ICSI treatment.

Before October 1 2023, the mare owner must provide an overview drawn up and signed by the vet or the ET center of the number of flushes/ICSI and the number of successful embryos per mare.

If the transfer of the embryo/ICSI has not been successful, this overview counts as a barren statement (if stated).

#### 4. INVOICES/PAYMENT

When ordering, the mare owner receives an initial invoice for the fixed cover fee of € 300,- (excl. VAT). In October the mare holder will receive a second invoice with the additional costs in case of mare's gestation. You can view these rates in article 6 of these conditions. Any transport costs will also be invoiced to the mare owner if the owner has chosen for delivery of the fresh semen.

Payments of invoices from HX Stallions have to be made within 30 days after the invoice date. If the payment term is exceeded, the invoice amount will be increased with collection costs and penalty interest as well as any collection costs, both judicial and extrajudicial.

#### 5. STUD FEES for FRESH SEMEN

The following fees are excluding VAT and deposits. Transport costs for semen are invoiced separately.

## 6. STUD FEES for FROZEN SEMEN

HX Stallions does not sell loose straws, only pregnancies (unless stated otherwise). For frozen semen from our stallions, please contact the stallion station. Rates for frozen semen are exclusive of Dutch sales tax, payments and any additional costs. The costs for shipping and health papers of frozen semen are charged additionally on the invoice.

The number of straws can differ per stallion. HX Stallions determines how many straws a dose consists of. Each dose contains the correct amount of straws required for one insemination. Splitting a dose or straws is strictly prohibited. Unused straws remain the property of HX Stallions at all times and have to be returned at the end of the season, as well as the empty straws.
