

## STUD CONDITIONS HX STALLIONS 2026

### 1. BREEDING SEASON

The breeding season runs from the 1<sup>st</sup> of March till the 15<sup>th</sup> of August 2026 with reservation to possible changes.

### 2. SEMEN ORDERING PROCEDURE

Semen from Stal Hendrix stallions may be sent to a Dutch insemination station of your choice. Please order before 09:00 AM. Alternatively, you may pick up the semen from Stal Hendrix in Kessel. Pick up is possible from 11:00 AM. **The mare's name, UELN number and the complete address of the mare owner must be provided when ordering or picking up semen.**

Semen can be ordered by telephone through:

• Rens Verberk: +31 6 3033 4431

Or by e-mail: [stallions@stalhendrix.nl](mailto:stallions@stalhendrix.nl)

Or through the website: <https://www.stalhendrix.nl/hx-stallions/>

If the order is placed before 09:00 AM, the semen can be delivered the same day at all insemination stations in the Netherlands. By ordering and purchasing the semen, the mare owner declares to have taken note of these conditions and agrees to the breeding and payment conditions.

Only certified insemination stations affiliated with the Association of KWPN Stallion Owners are entitled to an insemination fee.

If the mare remains barren, the mare owner must submit a barren mare declaration before October 1<sup>st</sup> 2026. Failure to comply with this policy will result in an automatic charge for the total fee. The barren mare declaration must be issued and signed by a veterinarian.

### 3. EMBRYO TRANSFER

If the mare owner wants to have an embryo flush procedure performed on their mare, it must be passed on to HX Stallions at the first semen order. If the attempt failed, semen can be ordered again for up to 3 attempts. Fixed costs will be charged again for a fourth attempt.

The stud fee will be charged per successful embryo, this also applies to frozen embryos and if several embryos are flushed from one insemination.

Before October 1<sup>st</sup> 2026, the mare owner must provide an overview drawn up and signed by a vet or the ET center of the number of flushes and the number of successful embryos per mare.

If the transfer of the embryo has not been successful, this needs to be stated on the overview and this overview counts as a barren statement.

### 4. ICSI

If the mare owner wants to do an ICSI procedure, this must be requested from HX Stallions in advance. After a signed contract has been sent and payment has been made, permission is given for one session.

The semen will remain the property of HX Stallions at all times. Prices per session are on request. Payment applies per session and no additional payment is required based on successful embryos. If no embryos are produced, there is no right to a refund of the stud fee.

## 5. INVOICES/PAYMENT

When ordering, the mare owner receives an initial invoice for the fixed covering fee of € 300,- (excl. VAT). In October the mare holder will receive a second invoice with the additional costs in case of pregnancy. You can view these rates in article 6 and 7 of these conditions. Any transport or additional costs will also be invoiced to the mare owner if the owner has chosen for delivery of the fresh semen.

Payments of invoices from HX Stallions have to be made within 30 days after the invoice date. If the payment term is exceeded, the invoice amount will be increased with collection costs and penalty interest, both judicial and extrajudicial.

## 6. STUD FEES for FRESH SEMEN

The following fees are excluding VAT and deposits. Transport costs for semen are invoiced separately. The pregnancy surcharge is calculated based on the last selected stallion in the event that there is a change between stallions.

All shipping costs are charged to the mare owner at a rate of € 35,- (excl. VAT) per shipment (price changes reserved).

## 7. STUD FEES for FROZEN SEMEN

HX Stallions does not sell individual straws, only pregnancies (unless stated otherwise). For frozen semen from our stallions, please contact the stallion station. Rates for frozen semen are exclusive of Dutch sales tax, payments and any additional costs. The costs for shipping, nitrogen and health papers of frozen semen are charged additionally on the invoice.

The number of straws can differ per stallion. HX Stallions determines how many straws one dose consists of. Each dose contains the correct amount of straws required for one insemination. Splitting a dose or straws is strictly prohibited. Unused straws remain the property of HX Stallions at all times and have to be returned at the end of the season, as well as the empty straws.
